

NAWRAY

# Global Powerbank WiFi P1

# 01

## 2in1 charging and internet access Fast Internet speeds

Global Powerbank WiFi(P1), combining charging and internet functions in two, Wired to charge and powered on with WiFi.

Though NAWRAY's self-developed cloud communication IoT platform, using the latest cloud communication technology, it realizes the connection and communication between the device cloud and multiple operator networks, and improves the speed of Internet access more substantially.

## 02

### **Global network coverage Intelligently match the local optimal network**

NAWRAY's global cloud communication IoT platform integrates 300+ mainstream operators' resources, network cover more than 200 countries or regions around the world, and can select the local optimal network in real time, bringing "seamless" networking experience.

Enjoy stable 4G LTE network with 150Mbps high-speed Internet access. At the same time, the cloud communication technology also completely eliminates global roaming charges, helping you to significantly reduce the cost of Internet access.

# 03

## 10000mAh large capacity battery Can be taken on the plane, a good travel companion

With 48 hours of ultra-long Internet battery life and 3 months of ultra-long charging standby, you can play to the end.

Comply with international air transportation standards, peace of mind to carry on the plane, a good travel companion.

# 04

## Super fast charge, very fast Comes with two lines, very convenient

Full coverage of 12 fast charging protocols, charging everything fast.

Supports Huawei SCP 22.5W Super Fast charge and 20W PD Fast charge.

With Lightning and TypeC two-way fast charging cable, no need to bring a line, where to charge, charge the phone, self-charging all done.

# 05

## Multiple protection, more secure It's very comfortable to hold

Various protection, use more peace of mind.

3D streamlined surface design, net weight 258g,  
both feel and aesthetic feeling

### ■ Safety protection

## ■ Product Specifications

<b>colour</b>	white	<b>Charging time</b>	About 3.5 hours
<b>size</b>	75mm x 158.5mm x 18.8mm	<b>Battery life</b>	About 48 hours
<b>Battery type</b>	Lithium-ion polymer	<b>Support network standards and frequency bands</b>	2G/3G/4G globally compatible
<b>Battery</b>	10000mAh		FDD-LTE: B1/B2/B3/B4/B5/B7/B8/B9/B12/B13/B17/B18/B19/B20/B25/B26/B28/B66
<b>Rated capacity</b>	6800mAh		TDD-LTE:B34/B38/B39/B40/B41 3G WCDMA/HSPA:B1/B2/B4/B5/B8 2G GPRS/EDGE:B2/B3/B5/B8
<b>Rated input</b>	5V=2A (TypeC/Lightning), 22.5W (Max) (TypeC wire)	<b>Rated output</b>	4.5V=5A,5V=4.5A,5V=3A,9V=2.22A,
<b>WiFi Technical</b>	IEEE 802.11b/g/n/ax 2.4G WLAN(Wi-Fi6)		12V=1.67A 22.5W(Max)(TypeC wire)
<b>Standards</b>	CAT4 peak: downstream 150Mbps, upstream 50Mbps		5V=3A,9V=2.22A,12V=1.67A 20W(Max)(Lightning wire)
<b>Total output</b>	TypeC wire+Lightning wire=5V=3A	<b>WiFi</b>	802.11 b/g/n 2.4G
<b>Power input</b>	USB TYPE-C DC 5V / 2A (AC 100V-240V)	<b>Peak rate</b>	Up to 32 terminals can be connected
